

CHARTERED INSTITUTE OF ENVIRONMENTAL HEALTH BASIC HEALTH & SAFETY CERTIFICATE

Course Aim:

To provide employees with health and safety understanding which will enable them to contribute to any health and safety management system.

Course Objectives:

To enable team members to work in a safe and healthy manner and contribute to improving health and safety within an organisation's policy.

To ensure team members are able to identify key hazards in their own workplace.

To ensure delegates understand the importance of health and safety rules and working procedures.

To ensure that team members are able to report health and safety problems.

To ensure that all delegates are aware that they are responsible for their own actions.

Programme Content:

Health & Safety at Work

Electricity

Health & Safety Law

Fire Prevention

Preventions of Accidents & Ill Health

Occupational Health

Risk Assessment

Hazardous Substances

First Aid at Work

Ergonomics & Workstation Design
